

Do You Think Health and Physical Education are Important?

Help Fight to Give Health and Physical Education Back to Our Kids!

Join the American Heart Association's "You're the Cure" Network

- In 2003, the Minnesota Legislature eliminated the graduation requirement for health and physical education in Minnesota.
- The American Heart Association, along with community partners, is fighting to bring back the graduation requirement and to ensure that all Minnesota kids receive quality physical and health education.
- And we aren't alone in supporting health and physical education: A majority of Minnesotans believe that Minnesota students should have physical education every day and at every grade level. We just need everyone to take action.

That's why we need you to join *You're the Cure*, a network of people taking action on public policy throughout Minnesota and the country. We make it easy to get involved with easy opportunities to contact legislators, frequent updates and newsletters, and great events!

JOIN TODAY, because we need your help to ensure that all Minnesota children receive quality health and physical education!
